We love being members of this Arizona Community. We have been here almost four years. During this time period we have had our expenditures increase considerably, while our income has remained constant, or as with the economy now, decreasing. I'm sure this is true with Mr. Frisby, as well, but for him to expect we seniors to shoulder the weight of his ^(water) increase is unconscionable. His over-head in the Beaver Dam Retirement Community is negligible making the amount Mr. Frisby is suggesting absurd!

This is a ressession!! An increase of this size now, is like an increase of triple that amount during normal times.. Beaver Dam is a senior R.V. resort that is a permanent home for many seniors who are on a fixed ~~low~~ income, and cannot withstand this increase during this time period!!

ENTER YOUR COMMENTS HERE:

Bob Frisby developed this area as retirement area. He surely is aware that most retirement people are on fixed incomes. His 50% increase seems arrogant and unnecessary to me. If there is to be an increase, make it a fair one. People who use the most water should be the ones to pay for it - every household should be metered and an accurate and timely reading would be the basis of such an increase.

No This is an outrageous and unfair 40% water rate increase, especially at this time of hardships, not only for ourselves, but the whole community. This community is made up of retired low income and many individuals who only get social security to live on. We lost 40K in our investment fund when the market started to fall. who voted NO to no water goes to NV all of us did. Please do not approve this water rate increase. NO
